owing to the failure of GE Security products beyond the cost of repair or replacement of any defective products. GE Security reserves the right to make product improvements and change product specifications at any time. While every precaution has been taken during the preparation of this manual to ensure the accuracy of its contents, GE Security specified time before reporting an alarm. During the time between trips, the NX-8 can be programmed to sound the keypad and/or the siren. The NX-8 can also be programmed to report an alarm after two or more trips on the same zone.
