The Financial Crisis: Who is to Blame?: Davies, Howard ...

There is still no consensus on who or what caused the financial crisis which engulfed the world, beginning in the summer of 2007. A huge number of suspects have been identified, from greedy investment bankers, through feckless borrowers, dilatory regulators and myopic central bankers to violent video games and high levels of testosterone among the denizens of trading floors.

Why the COVID-19 Financial Crisis Is Like No Other | Time

The financial crisis has shaken the economists' view of the rationality of individuals and efficiency of markets. After regulation, the most highly rated causes of the crisis were irrational beliefs (on house prices or risk) and corrupt incentives (fraud in mortgages and credit rating agencies). Household debt is only seventh on the list.

Who Is to Blame for the 2008 Financial Crisis? - Pro Market

Financial geniuses cooked up new ways to buy, slice, dice, reconstitute, and sell mortgages as novel securities that no one really understood but that investors were willing to buy because rating agencies - clueless, conflicted, and unregulated - said they were solid. Mortgage brokers were permitted to confuse and deceive prospects.

...

Housing prices started falling in 2007 as supply outpaced demand. That trapped homeowners who couldn't afford the payments, but couldn't sell their house. When the values of the derivatives crumbled, banks stopped lending to each other. That created the financial crisis that led to the Great Recession .
